Kwara State Directory of GBV Service Providers

An initiative of Olive Community Development Initiative
in Partnership with the Kwara State Ministry of Women
Affairs and Ministry of Justice

This is a publication by Olive Community Development
Initiative in Partnership with the Kwara State Ministry of
Women Affairs and Kwara State Ministry of Justice with
funding from Global Affairs Canada through the support of
ActionAid Nigeria

ABOUT THE PARTNERS

OCDI is a non-governmental, non-religious and non-political organization that promotes the rights of women and girls and other vulnerable groups in Kwara State. The head office is located at Apata Ajele community, Asa Local Government Area of Kwara State. OCDI strategically implement interventions through partnerships and systems strengthening to advance gender equality, justice and promotion of women's rights.

Our thematic areas are Sexual and Reproductive Health, Women Economic Justice, Sexual & Gender Based Violence, Education and Women, Peace and Security. OCDI presently implements interventions on Sexual and Gender Based Violence in Kwara State under the Women Voice and Leadership (WVL) Project through the funding of ActionAid Nigeria supported by Global Affairs Canada. As part of our GBV interventions, we provide services such as psychosocial support, economic empowerment, access to justice, social welfare support and skill acquisition to survivors. Also, we implement our ingenious OLIVE Household Economic and Livelihood Program which provides soft loans to small businesses owned by women and girls.

ActionAid Nigeria is an affiliate of ActionAid International and is focused on achieving a world without poverty and injustice. AAN works through partnership with grass root organizations to bring about increased women's voice and ensure that everyone enjoy the right to a life with dignity. The organization commenced operation in Nigeria in 1999 as a Country programme of ActionAid International but has transformed into an autonomous national organization registered with the Nigerian Corporate Affairs Commission. AAN works across the 36 states of the federation.

ABOUT THE DIRECTORY

The Kwara State Gender Based Violence service providers directory was brought about by the need to improve access of the populace to SGBV support services in the state. OCDI for a number of years has been working towards reduction of Gender Based Violence and the eradication of the culture of silence by encouraging survivors of SGBV and people related to them to speak out in the event of violence. However, many are still silent because they do not know who to speak to nor have access to contacts of NGOs and government agencies that can give specific GBV related services like Counselling, psychosocial therapy, legal support, medical support and other services that will ensure they get justice and are emotionally stable.

This brought about the need to work with the ministry of women affairs and ministry of justice to put together a service directory for GBV service providers in the state so that the populace can have easy access to the service provider they can reach to get support and services related to Counselling, psychosocial therapy, legal support, medical support and other services that will ensure they get justice and are emotionally stable. The service provider directory developed will be publicized using the traditional media and the social media to create awareness on GBV service accessibility in the state so as to give visibility to the projects being done in the state.

This will eventually lead to an increased awareness on where to get GBV related support in the state.

METHODOLOGY

To collate the data of organizations offering services related to Sexual and Gender Based Violence in Kwara State, a google form was created and publicized on relevant groups and networks so as to ensure inclusion of as many organizations as possible. After the data was collected, confirmations were done through phone calls to the organizations to ascertain the claims. The Kwara state ministry of women affairs and the ministry of Justice were also contacted to crosscheck and do a double check of the NGOs gathered earlier to ascertain their credibility. The consent of the organizations was sought to publicize their contact information in the directory.
